It provides the place and space for children and teens to come together in an atmosphere of love and acceptance. The purpose of Camp Good Grief is: For children and teens to meet others their own ages who are also learning about and understanding their grief. The second is to run, play, laugh, and be themselves--to really have a great time! By meeting others like themselves, they discover that they can share the same feelings and that those feelings are normal and okay. When a child or teen grieves alone, he or she may not realize that the feelings they experience at different times during the grief process are common--they are natural and normal. It is very important to understand that what is happening to them happens to others also. Their pain is understood here and accepted.</p>

This is primarily accomplished through partnerships with local service agencies to provide quality programs to young children and their families. Other tools or resources offered by First 5 in the endeavor to improve early childhood include the Kelly Torres Center, the Kit for New Parents, and our School Readiness Initiative. First 5 San Bernardino's commitment to serving our youngest children stems from the research in brain development showing that the experiences of children in their earliest years significantly affect the way they grow and develop. Positive results in the early years impact dramatically on their physical, mental, emotional and social development. This, in turn, reduces the social and financial costs of services the children might need in later years.</p>
